EU Project Design and Project Cycle Management

European Project Design and management training for school staff, aims at providing a thorough understanding of the EU grants and will allow the participants to acquire the theoretical and practical fundamentals of project management in order to acquire and improve project management skills and increase access to European Funds. The training will offer extensive use of exercises and case studies about all funding opportunities proposed with main focus on Erasmus+ Programme projects.

Secondary and primary school teachers and staff , VET and High School Teachers and staff

1. Familiarise with EU financial framework and Programmes
2. Focus on objectives, methodologies, conditions and best-practices of Erasmus+
3. Provide advice and guidance on how to write a successful proposal and plan your project so as to exploit available EU funding opportunities
4. Familiarise with principles, powerful techniques, tips and tools on successful project planning and effective project cycle management (PCM)
5. Provide advice on monitoring, evaluation and controlling tools of your project
6. Familiarise with successful dissemination/promotion and exploitation principles of European projects
